

Fleck, Diane

Subject: California Selenium Wildlife Water Quality Criteria
Location: Webinar

Start: Tuesday, June 26, 2018 1:00 PM
End: Tuesday, June 26, 2018 2:30 PM

Recurrence: (none)

Meeting Status: Not yet responded

Organizer: Fleck, Diane

Hi All,

EPA would like to meet with FWS and NMFS to start informal ESA consultation discussions concerning our upcoming selenium wildlife water quality criteria proposal for the “rest of California” (i.e., for California freshwaters). As you know, we are required to propose revised selenium criteria by November 30, 2018, pursuant to our 2014 Consent Decree with Our Children’s Earth and Ecological Rights Foundation.

Tom / Joe – please forward this invitation to any of your colleagues (e.g., field offices) that may be assisting with the ESA consultation and/or are interested in participating.

You are welcome to come to our offices in San Francisco; we will also set up a webinar for people who do not want to travel. I will send out an updated invitation with webinar information, closer to the date. We plan to present a summary of our proposal with a power point presentation, and answer questions. We would appreciate hearing your initial thoughts and/or feedback, so that we can start to address any ESA concerns you might have.

Thanks! Please let me know if you have any questions.

Diane
